

# Not Over (feat. Ryan Tedder)

[Paul Oakenfold](#)

Time to say goodbye, its time to make a move  
Nothing left to hide, everything to lose  
There is not a day I wake, not a step that I take  
When I dont see your ghost, I think you should know  
Its time for both of us to put aside our past  
Were looking forward now, strong enough to last  
Theres not a night I sleep, not a dream that I keep  
If I dont see your face, its you I cant replace  
Youre running through my mind  
Baby all the time, its not over yet  
Deep inside my soul  
This I know for sure, its not over yet  
Youre running through my mind  
Baby all the time, its not over yet  
Deep inside my soul  
This I know for sure, its not over yet  
Every single night I dream of love  
Every single day Im thinking love  
With every thought of you Im still in love  
Dont say goodbye 'cuz its not over yet  
(Every night, every day)  
Not over yet  
(Every night, every day)  
Youre running through my mind  
Baby all the time, its not over yet  
Deep inside my soul  
This I know for sure, its not over yet  
Youre running through my mind  
Baby all the time, its not over yet  
Deep inside my soul  
This I know for sure, its not over yet
