## Neverest

Everything that you say  
lies, lies, lies  
I just don't understand  
why, why, why  
You couldn't talk about it  
You couldn't even make a sound  
Everything that you are  
lies, lies, lies And who do you think you're foolin'?  
Smooth talkin' like you run this town  
You watch the words you're choosin'  
cause one day it might come back around  
Don't even say you're trying, Don't even come around  
If you don't stop, and you won't stop, cause you can't stop Cause I can't take the lies  
So I turn up the music, and rewind the music  
I can't take the lies  
So I turn up the music, and rewind the music  
I don't care what you tell me  
I don't care what you do  
I don't care what you're selling  
I ain't buying shit from you, lies  
So I turn up the music and rewind the music All that you ever do is  
take, take, take  
Promises that you make  
break, break, break  
You couldn't talk about it, you couldn't even make a sound  
Everything that you are is  
fake, fake, fake Who do you think you're foolin'?  
smooth talkin' like you run this town  
You watch the words you're choosin'  
cause one day it might come back around  
Don't even say you're trying, don't even come around  
If you don't stop, and you won't stop, cause you can't stop Cause I can't take the lies  
So I turn up the music, and rewind the music  
I can't take the lies  
So I turn up the music, and rewind the music  
I don't care what you tell me  
I don't care what you do  
I don't care what you're selling  
I ain't buying shit from you, lies

So I turn up the music and rewind the music  
You cried wolf, too  
Many times, you  
And used up all of your nine lives  
Disgusted, you  
Can't be trusted  
You wasted all our time.
