

Crystal Gazing

Witchfynde

well if you're looking for me, It can be shown the unknown,
in case my way is odd, to me is just this one world
I already know well, i've just had to look,
I already know when I've just had to look because
I'm crystal gazing, crystal gazing,
keeping it in touch, crystal,
crystal gazing leaving nothing to lie
and if you go into hiding,
so at least do what you want,
so now i have you turned around
'cause misuse nothing left behind
I already know well,
i've just had to look,
I already know when I've just had to look,
because I'm crystal gazing,
keeping it in touch, crystal,
crystal gazing leaving nothing to lie
while you're sleeping at night,
and you think you're alone I'll be near you watching
while you're sleeping at night,
and you think you're alone I'll be near you watching
If you only think you can know,
it'd be cold and despair tell me where you've been you ...
'cause I've already been there
I already know well, i've just had to look,
I already know when I've just had to look
because I'm crystal gazing, crystal gazing,
keeping it in touch, crystal,
crystal gazing leaving nothing to lie
