

# All God's Children

## Love Spit Love

All God's children come to harm  
There's no good reason for alarm  
Let them play There's always blue skies follow rain  
The sun will always shine again  
So they say I see little girls down below  
Singing summer songs  
There's a shadow where there was a sun  
Now the summer's gone The sky is raining at my back  
And all my dreams got painted black  
I want them back I see little girls down below  
Singing summer songs  
There's a shadow where there was a sun  
Now the summer's gone I speak too much, yeah, yeah  
I talk too much, yeah  
I think too much, yeah, yeah  
I talk too much, yeah There's always blue skies follow rain  
The sun will always shine again  
So they say I see little girls down below  
Singing summer songs  
There's a shadow where there was a sun  
Now that summer's gone I speak too much, yeah, yeah  
I talk too much, yeah  
I think too much, yeah, yeah  
I talk too much, yeah I speak too much  
I talk too much  
I think too much  
I talk too much
