

Words To Me

Sugar Ray

Get up, get up, get up, yeah
Get up, get up, get up, get upShe sings these words to me
She sings these words to meI look at you and try to do the best I can
But sometimes it ain't that easy
"If not today", she said, "Then tell me when"
I think I tried to say I'm sorry
Then she said these words of reverence
"Please don't leave me hanging on and on"I see the light in your window
Look at the sky and we can go awayGet up, get up, get up, and I'm gonna
Pick you up and take you where I wanna
Get up, get up, get up, and I'm gonna
Pick you up and take you where I wannaLa la la la la
She sings these words to me
She sings these words to me, babyThe summer's sun is warm and you are everywhere
But sometimes it ain't that easy
I count the days till I see you again
You know I tried and I am sorry
One night can make a difference
Please don't leave me hanging on and onI see the light in your window
Look at the sky and we can go awayGet up, get up, get up, and I'm gonna
Pick you up and take you where I wanna
Get up, get up, get up, and I'm gonna
Pick you up and take you where I wannaLa la la la la
She sings these words to me
She sings these words to me, babyAnd I don't mind the waiting
When she sings these words to meI see the light in your window
Look at the sky and we can go
Look at the sky and we can go awayShe says these words
(La la la la la la)
She says these words
(Come away with me tonight)
She says these words
(La la la la la la)
She says these words
(Come away with me tonight)Get up, get up, get up, and I'm gonna
Pick you up and take you where I wanna
Get up, get up, get up, yeahGet up, get up, get up, and I'm gonna
Pick you up and take you where I wanna
Get up, get up, get upWhen she sings these words to me

La la la la la la
Come away with me tonight
La la la la la la
Come away with me tonight
