For Once In My Life

Atomic Kitten

I keep waiting for our love to be
Just how we used to be
And I keep praying that
I see you smile although it's been a whileTell me the reason that
You're stalking me without good respect
Too little baby, much too late
Ain't gonna be my big mistakeFor once in my life
Want to do what's right for me
For once in my life
Got to see what I believeFor once in my life
Not gonna take it anymore
For once in my life
You got to deal with the feel that
I'm ready for a new day at dawnSomeday soon I know
I'll find someone who'll help me see the sun
Somehow I ain't gonna feel alone
It's time for moving onShow me the reason why
You're stalking me without good respect
Too little baby, much too late
Ain't gonna be my big mistakeFor once in my life
Want to do what's right for me
For once in my life
Got to see what I believeFor once in my life
Not gonna take it anymore
For once in my life
You got to deal with the feel that
I'm ready for a new day at dawnI keep waiting for our love to be
Just how it used to be
I keep praying that I see you smile
Although it's been a whileTell me the reason that
You're stalking me without good respect
Too little baby, much too late
Ain't gonna be my big mistakeFor once in my life
Want to do what's right for me
For once in my life
Got to see what I believeFor once in my life
Not gonna take it anymore
For once in my life
You got to deal with the feel that

I'm ready for a new day at dawnFor once in my life
Want to do what's right for me
For once in my life
Got to see what I believe
