

Small Town Big Time

[Chris Young](#)

Hangin out at the old park pool
Right after Sunday school
Banana Boat, a rubber float
Another summer afternoon Bonfire at the creek tonight
Bubba bringin some homemade wine
Just enough to catch a buzz
And get us countrified Oh, my my, thats just the way we do it
Cut off Levis and kickin country music
Miles from nowhere, there aint no city limits
And thats where youre gonna find us havin a small town big time A population 903
Half of them are kin to me
And those that aint, they know my name
Were like one big family Gather at that old campsite
To lie about the fish and their size
Uncle Carl and his old guitar
Singin, 'Louisiana Saturday Night' Oh, my my, thats just the way we do it
Cut off Levis and kickin country music
Miles from nowhere, there aint no city limits
And thats where youre gonna find us havin a small town big time Oh, my my, thats just the way we do it
Cut off Levis and kickin country music
Miles from nowhere, there aint no city limits
And thats where youre gonna find us havin a small town big time
A small town big time
