Small Town Big Time

Chris Young

Hangin out at the old park pool Right after Sunday school Banana Boat, a rubber float

Another summer afternoonBonfire at the creek tonight

Bubba bringin some homemade wine

Just enough to catch a buzz

And get us countrifiedOh, my my, thats just the way we do it

Cut off Levis and kickin country music

Miles from nowhere, there aint no city limits

And thats where youre gonna find us havin a small town big timeA population 903

Half of them are kin to me

And those that aint, they know my name

Were like one big familyGather at that old campsite

To lie about the fish and their size

Uncle Carl and his old guitar

Singin, 'Louisiana Saturday Night'Oh, my my, thats just the way we do it

Cut off Levis and kickin country music

Miles from nowhere, there aint no city limits

And thats where youre gonna find us havin a small town big timeOh, my my, thats just the way we do it

Cut off Levis and kickin country music

Miles from nowhere, there aint no city limits

And thats where youre gonna find us havin a small town big time

A small town big time
