

Seventeen

Tim Mcgraw

(track 2 - time 3:18)

(aimee mayo/bill luther/chris lindsey) Backseat of her daddy's car

I was trying not to go too far

Kept thinking about the words the preacherman said

Lightnin' flashed across the sky

I saw love in a young girl's eyes

And that's a look you never forget Seventeen only comes once in a lifetime

Don't it just fly by wild and free

Goin' any way the wind blew baby

Seventeen livin' on crazy dreams

Rock and roll and faded blue jeans

And standing on the edge of everything

Seventeen Legs hangin' off the bayou bridge

Feedin' fish potato chips

And talkin' about the mysteries of the universe

Yeah the world was somewhere else

We had the summer all to ourselves

And the stars went off like fireworks Seventeen only comes once in a lifetime

Don't it just fly by wild and free

Goin' any way the wind blew baby

Seventeen livin' on crazy dreams

Rock and roll and faded blue jeans

And standing on the edge of everything

Seventeen Seventeen only comes once in a lifetime

Don't it just fly by wild and free

Goin' any way the wind blew baby

Seventeen livin' on crazy dreams

Rock and roll and faded blue jeans

And standing on the edge of everything

Seventeen

Yeah seventeen

Sweet seventeen
