

Snakes

Pixies

Meet me by the coppice stool
Before the night takes back its jewels
Bring your life of memories
Before they sink into the seas
Snakes
Are coming to your town
In tunnels underground
Some travelling overground
A plague for our mistakes
They'll be right next to you
Snakes up against me too
There'll be nothing to do
When the rattle shakes
One more blast and then we're dry
Say some words, I'll write them down
Seal the couplets deep inside
Snakes
Are coming to your town
In tunnels underground
Some travelling overground
A plague for our mistakes
They'll be right next to you
Snakes up against me too
There'll be nothing to do
When the rattle shakes
