

# Some of These Times

## Raised Fist

As I walk through memories and at the end of these  
I've burned a lot of pain to see you within  
Deep powdered my skin and it's burning And I wanna break through to you  
Try to speak to you and I  
And I seem to get to what's right  
But you're not listening right When you went through my head  
Turned it upside down  
Fuck you, sick of you all the time  
(I'm sick of you all the time) And some of your shit, reaches my evil side  
And I can't deny, some of these times  
I wish you would die Listen up, all the time, suck it up  
You just cannot see it  
(Sick of you all the time) Listen up, all the time, suck it up  
You just cannot see it Why can't you learn to read the sign  
Read between the lines  
Closer to what I want to say  
And now I totally feel Instead I have to put all this in rhymes  
Some I seriously am gonna buy  
Does it make you feel fine  
(No resisting) When you went through my head  
Turned it upside down  
Fuck you, sick of you all the time And some of your shit, reaches my evil side  
And I can't deny, some of these times  
I wish you would die Listen up, all the time, suck it up  
You just cannot see it  
(Sick of you all the time) Listen up, all the time, suck it up  
You just cannot see it  
(I'm sick of you all the time) Listen up, all the time, suck it up  
You just cannot see it  
Listen up, all the time, suck it up  
You just can't believe it  
(I'm sick of you all the time) Went through my head  
Turned it upside down  
Fuck you, sick of you all the time Some of your shit, reaches my evil side  
Some of these times  
I wish you would die Listen up, all the time, suck it up  
You just cannot see it  
(Sick of you all the time) Listen up, suck it up, listen up  
You just cannot see it

(I'm sick of you all the time) Listen up, all the time, suck it up

You just cannot see it

Listen up, all the time, suck it up

You just can't believe it

(I'm sick of you all the time)
