Beautiful People

The Books

(Reverse) Behold the finite set of thirteen convex figures
The irrational sine versus tangent 45Behold the finite set of thirteen convex figures
The irrational sine versus tangent 45And we genuflect before pure abstraction
1.05946, twelth root of two, amenTo begin againTo whom we revenerate seven pieces,
endlessly manifold, self-contained revealed, repleteWith all respect, we beseech the books of figures
Make us your analog, to begin again
