Two Fine Lovers

Sean Lennon

When I first fell in love
Is when I felt your touch
But there's so much more I want to say
We need to keep it real
Sharing what we feel

Together we can face tomorrowIf we ever get up at seven o' clock it's too soon It's better to stay in bed 'till half past noonCause we're two fine lovers

So much to discover

Two fine lovers

Living under coverWhen I look into your eyes

I came to realize

That you were so much more

Than my best friend

I'll be there 'till the end

I'm a one woman man

Cause baby you are all I'll ever needIf we ever get up at seven o' clock it's too soon It's better to stay in bed 'till half past noonCause we're two fine lovers

So much to discover

Two fine lovers

Living under cover

We're two fine lovers
