

# Time And Again

## Oscar Peterson Trio

The sun brought me, the moon caught me  
The wind fought me, the rain got me  
The road sent me, for years bent me  
The stars overwhelmed me time and again  
But now I can't see the stars  
The star is a thing I can't see  
And now I don't feel the same  
To feel is a thing that can't be  
Earth crushed me, fame brushed me  
The streets hushed me as life touched me  
Time placed me, events dazed me  
Love saved me now and again  
But now there can be no love  
Love is a thing that can't be  
And now there can be no trust  
Trust is a thing I can't see  
But now there can be no love  
Love is a thing that can't be  
Now I can't be so strong  
Strong is a thing I can't be  
Time and again, time and again  
The sun brought me
