

Lava

[Kat Dahlia](#)

I say its just a fling
Don't go celebrating
He wants to make me better
He wants to make me wetter
Baby it's just a fling
He wants to make me scream
He wants to make me do those things
That I could never do
No I can't stick with you
Baby its just a fling I climbed the mountain top
I conquered your hard rock
Your lava never stops
My lava never stops
I climbed the mountain top
I conquered your hard rock
Your lava never stops
My lava never stops Oh here we go again
Remember baby were just friends
I'm falling off the bed
You show me how you get up
Oh baby were just friends
You show me now you're in
You show me how to drink you up like gin
Oh now I've made a mess
And I can't find my dress
Oh baby were just friends I climbed the mountain top
I conquered your hard rock
Your lava never stops
My lava never stops
I climbed the mountain top
I conquered your hard rock
Your lava never stops
My lava never stops You taste my creation
As we create more eruptions
A story only lives in the heat of friction
I can taste creation
As we create more eruptions
A story only lives in the heat of friction I climbed the mountain top
I conquered your hard rock

Your lava never stops
My lava never stops
I climbed the mountain top
I conquered your hard rock
Your lava never stops
My lava never stops
