

# Diamond

## Spin Doctors

You know my boat has holes  
I see you brought your gales  
I see you brought you souls  
To leave inside my sails  
And oh I love you all  
Others more than some  
You dear best of all  
Know where my boat is from  
Oh I love you all  
Others more than some  
Dear you best of all  
Know where my boat is from  
She had eyes all wild and free  
All she had the soul of a guitar  
Like a diamond on the sea  
Like a stolen burning star  
There was no playing lame  
There was no playing dumb  
You know she knew my name  
And where my boat is from  
All my rights and wrongs  
You know she knew the sum  
You know she knew my song  
And where my boat is from  
Oh I love you all  
Others more than some  
Dear you best of all  
Know where my boat is from  
You know where my boat is from  
My boat is from  
Diamonds brightly burn  
Inside my broken heart  
We never did return  
We never can depart  
Don't know where I've been  
I don't know where to come  
And I've had to swim  
To where my boat is from  
Oh I love you all

Others more than some  
Dear you best of all  
Know where my boat is from  
You know where my boat is from  
My boat is from, my boat is from  
My boat is from
