

Same Thing

[Keyshia Cole](#)

(keyshia) here we go again with all this, like why we cant never get this right
(man) yo, what you talking bout man
(keyshia) man its sickening (here we go)
(man) yo, where you think you going
(keyshia) what you mean where Im going (going through the same things)
(man) you heard me
(keyshia) man, whatever
(man) yo, come here man (here we go)
(keyshia) over and over again it's the same story man
(man) what you mean over and over again
come on man, what you talking about (going through the same things) I should have never let you see me cry
Ill be sitting up thinking, Ill be thinking about
What Im going do knowing I should just
Leave you alone let go and move on (just leave you alone)
It's same ole things, just another day
and the minute Im gone, is when you need me (same ole thing)
couldnt get you to act right (that's when need me)
but now you go getting everything tight
dont want to play games (no)
why cant you do right (make you do right)
why cant you love me (love me)
the way its suppose to be Here we go, going through the same thing
Over and over and over again
Here we go, going through the same thing
Over and over and over again
