Alphaville

Bryan Ferry

Nobody knows you're here
Deep undercover
You seem a bit afraid
Why do you suffer?Another night
A night in AlphavilleThis time is made for love
Let's play together
In every bar and club
Now and foreverAnother night
A night in AlphavilleYou say you won't
But girl, I know you will
[Incomprehensible]
[Incomprehensible]I'm hungry for your love
You scream and whisper
A thousand alibis
You point the fingerAnother night
A night in AlphavilleDon't try to read my mind
A broken circuit
And all my hands are tied
Nobody's perfectAnother night
A night in AlphavilleYou say you won't
But girl, I know you will
The world goes 'round
But here it stays the same
In second class
Nobody knows your nameAnother night
A night in AlphavilleYou say you won't
But girl, I know you will
I wanna live
But life ain't worth a dime
Lasting and light
Reflected in your eyesAnother night
A night in Alphaville
