

# Money Don't Mean A Thing

## Dwele

(Chorus)

Money don't mean a thing  
I'd rather have someone that makes me happy  
Know the one, Me, her, love  
Holdin each other, watchin the sun come up  
And I would give up everything  
Just to have a shorty that loves me  
For me

(Verse 1)

I got a house on a hill with 17 niggas around me  
But it feels empty (yes it does)  
And I can call two or three girls at the same time to make love to me  
But I still feel lonely (so lonely)  
Now I can go from 0 to 60 in my V-1-2 with the chromed out shoes  
But it feels like I'm standing still (standing still)  
We can take a cruise around the world  
And I'll pay the cost  
But I feel lost (I feel so lost)  
Money don't mean a thing  
(Chorus)

(Verse 2)

When I look out my window I can see a small body of water  
And I wish I could sail away (sail away)  
For it ain't that far  
I can probably can get from here to Amsha  
A place in the motherland, Y'all don't understand  
From the outside, looking in, I live the perfect life  
But that ain't right no, no, no (so far from right)  
So I do what I gotta do  
Just to take it through (I'm waitin on you)  
Cause it don't mean a thing, without you  
Money don't mean a thing

(Chorus)

Money don't mean a thing (money don't mean a thing, no)  
Money don't mean a thing  
Money don't mean a thing  
How many times have you had money in your life  
But it didn't make things right

Money don't mean a thing  
(Chorus) fade away
