

Never Say Never

Styx

Written by tommy shaw

Lead vocals by tommy shaw Never, never, never say never

Ne dis jamais jamais

Better, better believe in forever

And it can be that way You think that you could never love again

The one time really tore you apart

So don't even try to touch your heart

You're never going to give it again Never, never, never say never

Ne dis jamais jamais

Better, better believe in forever

And it can be that way You think too much joy can only bring pain

Before you know it, it can be gone

But give me a chance to prove you're wrong

You'll never say never again Never, never, never say never

Ne dis jamais jamais

Better, better believe in forever

And it can be that way Take time to smell the roses

Don't hold back your one chance

It hardly lasts, it hardly lasts

Better, better believe in forever Out here I stand with my heart in my hand

My hopes on a wing and a prayer

I must have been born with a hole in my head

Cause I've never said these things before Never, never, never say never

Ne dis jamais jamais

Better, better believe in forever

And it can be that way
