8 Bit Hero

Nomy

A dream you keep inside of you
A dream of love that may come true
You are living to be found someday
By someone fighting all the way just for youA world created by deaf men
I bet you are waiting for your man
It's red and blue It's for you need
Be created for this I would've been
Just for you
Just for youOh! I'll be running for always
I'm not getting closer
This game is getting olderAnd I just can't run no more
I'll be fighting too long now
I'm not getting closer
I give you to BowserA rebel girl is what you are
A princess waiting for a star
But no one never comes for you
They made it too hard breaking through
Because of you
Because of youOh! I'll be running for always
I'm not getting closer
This game is getting olderAnd I just can't run no more
I'll be fighting too long now
I'm not getting closer
I give you to BowserI am a Hero! (X4)Oh! I'll be running for always
I'm not getting closer
This game is getting olderAnd I just can't run no more
I'll be fighting too long now
I'm not getting closer
I give you to Bowser
