

Did It Ever Cross Your Mind

Vanessa Hudgens

Did it cross your mind boy
Did it ever cross your mind boy

Things that I would face
Knowing that I would never see your face
I miss you baby every day and night
It just ain't right
Did it every cross your mind boy
You would break my heart
Knowing that you would break this soul apart
These tears of mine I cry so hard at night
It just ain't right

[Chorus]

Did it ever cross your mind
That id be left behind
Did you ever stop to think
You'd lose me in a blink
Did it ever cross your mind
I'd probably save the light
Did it ever cross your mind
No and that just ain't right

No no it just ain't right
No no it just ain't right

Listen now your gone
Be done and tryin' so hard to move on
I face it now I lying to myself
It just ain't right
Did it ever cross your mind boy
Its not that kinda thing
I know I don't know what your tryin' to say
Nothing that I can do to help
Its just ain't right

[Chorus]

Now your gone
I'm trying I trying to move on

Now your gone
I'm trying I trying to move on
Now your gone
I'm trying I trying to move on
Now your gone
Did it ever cross your mind

[Chorus]

No no it just ain't right
No no it just ain't right
No no it just ain't right
No no it just ain't right
