

All Tore Down

Johnny Winter

Oww! You know I'm all, all tore down
I'm all tore down, yeah
I'm standing up tall
With my back flat on the ground You know I'm all tore down
I'm all tore down, yeah
Somebody tell the world to stop
Or just slow down [Instrumental] You know I never had nobody
Don't fool around with me
And now here come the whole world's army
Kicking me in the teeth That's why I'm all tore down
I'm all tore down, yeah
I'm standing up tall
With my back flat on the ground You know I'm all tore down
I'm all tore down
Somebody tell the world to stop
Or just slow down Get down! You know I went out to buy me a bottle
And try to soothe the pain
Before I left the cashier
He was f-ing me about the change That's why I'm all tore down
I'm all tore down, yeah
I'm standing up tall
With my back flat on the ground Yeah, all tore down
I'm all tore down, yeah
Somebody tell the world to stop
Or just slow down Slow down! Yeah! [Instrumental] I went home to sip my supper
And have me a peaceful night
But there at home was the roller's own
With my rantin' ravin' wife That's why I'm all tore down
I'm all tore down
I'm standing up tall
With my back flat on the ground Wooh, I'm all tore down
I'm all tore down
Somebody tell the world to stop
Or just slow down [Instrumental] Do it!
Get down!
Huh!
