

Make Me

Janet Jackson

I see what you're doing
Come here
So you think you're ready?
I just need you to
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, make me
You came here to sit or party
Tell me what's the deal
Gon' get up and shake your body
Come on and take me there
Ain't nobody else like you
Only you got the moves you do
Ain't nobody else move like you
Only you got the grooves to prove it, baby
We're gonna have a good time
Me and you gon' get it tonight
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, make me
Don't stop it, baby
Don't stop 'til you get it up
Don't stop it, baby
Don't stop 'til you get it up
Don't stop it, baby
Don't stop 'til you get it up
Don't stop it, baby
Don't stop 'til you get it up
I see you against the wall, boy
What you waiting for?
I want you to take control now
Get up on the floor, come on now
Ain't nobody else like you
Only you got the moves you do

Ain't nobody else move like you
Only you got the grooves to prove it, baby
We're gonna have a good time
Me and you gon' get it tonight
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, make me
It's getting hot in here
Just how I like
We gon' dance it up
Until we see the light
If you feel like I feel you can get it tonight
But first you gotta make me say
Ooh, make me, make me, baby, make me say
Ooh, make me, make me, baby
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, can you move, make me groove?
Show me what you do, make me move
Baby, make me
Don't stop it, baby
Don't stop 'til you get it up
Baby, make me
Don't stop it, baby
Don't stop 'til you get it up
Baby, make me
Don't stop it, baby
Don't stop 'til you get it up
Baby, make me
Don't stop it, baby
Don't stop 'til you get it up
Baby, make me
