

Disco

Howie Day

Every night is disco night
with you I'm living every moment for you
seein' things in a different way
Oh my god, i'm thankful that you're leaving
Is there something we can do, this afternoon
Is there nothing left to say well
Oh your love cautions you and you are something new, afternoon
I'll make it up to you somehow
I'm laughin' and your dancin' like my mother
and I'll teach you to go off on me
Shake, shake from the horror
Mirror naked feelin' high
the radio is not store bought but stolen
Another night is going out
It's Saturday and now you've got the fever
Is there something we can do, this Afternoon
Is there nothing left to say, well
Oh your love cautions you and you are something new, afternoon
