I'm Not the One

Shelby Lynne

(Craig Wiseman - Kent Blazy)You said she's the one you love
But lately you can't get along
And every time you turn around
Something else just turns out wrongYou say that work takes all your time
And you're dead when you walk through the door
You'd give that ladder you have climbed
To have the love you had beforeChorus
But I'm not the one you should be talking to
Understanding all you're going through
Hey, there's really nothing I can do
But tell you where I'd walk if I were in your shoesAnd I'm not the one who should be hearing this
She needs to know how much you miss her kiss
Oh you tell me that your heart's still true
But I'm not the one you should be talking toYou should be walking out the door
Instead of lying here with me
Oh you're wasting precious time
Time with her is all you needWell it may not be too late
To get back all those dreams you shared
And it'd be easy as a touch
I she only knew how much you caredRepeat ChorusOh you say you feel like a fool
But I'm not the one you should be talking to
