Naked Heart

Ilse DeLange

I've been lookin' at you, lookin' at me
And somethin' tells me that
This could be a once in forever thing
So why are you holdin' backNo more smoke and mirrors
I need to know how deep you feel
If you really want me, baby
If you really want me, yeahWrap me up, get too close
Completely let yourself let go
Baby, your soul, go too far
With your love stripped down, no walls no bars
Baby, come to me with a naked heartI have had more than my share
Of secrets and lies and calculated mysteries
So this time I need to be sure, you're mine
Truly honestlySurrender, don't just hold me
To really love me you got to show me
You're strong enough now, baby
To let yourself be weakWrap me up, get too close
Completely let yourself let go
Baby, your soul, go too far
With your love stripped down, no walls no bars
Baby, come to me with a naked heartWrap me up, get too close
Completely let yourself let go
Baby, your soul, go too far
With your love stripped down, no walls no bars
Baby, come to me with a naked heart
