

Magic Me (feat. Todd Rundgren)

[Nazz](#)

Innocent angel with your evil mind
But not around to see me plot the perfect crime
It makes me dizzy thinking just what you might do
And if you should find that I'm as evil as you Magic me, know just what you hide girl
Magic me It isn't just talent 'cause it took me years
And girls like you only want to see my tears
I'd like to sit back now just to picture the fun
And see your reaction when the damage is done Magic me, know just where you hide girl
Magic me, know just what you've got, yeah The spell is very simple and it's worked so far
It's quick and very painful and it leaves a scar
This justice come everything is all right with me
Then I'll treat you just like you treated me Magic me, know just where you hide girl
Magic me, know just what you've Magic me
Magic me
Magic me
