

# Every Snowflake Is Different (Just Like You)

## My Chemical Romance

Every snowflake's different just like you  
(Every snowflake's different just like you)I'll sing about it if you ask me to  
(Ask me to)Different shape and different size  
Like every star up in the sky  
Every snowflake's different just like youGreen fur  
Blue skin  
And the very silly way you grin  
Big fangs  
Small chin  
There are so many special things about you  
Things about you  
Things about you  
Every snowflake's different just like  
Every snowflake's different just like  
Every snowflake's different just like youDifferent shape and different size  
Like every star up in the sky  
Every snowflake's different just like you
