

# We Can Do More

## Bill Caterini & Sara James

We Can Do More

There can be love  
Between us  
All connected  
The world is small

Can we be in love with each other blind to race and belief  
In love with nature, the common air we breathe

Violence is the weakest power  
But there will always be war  
Stuck in our darkest hour  
Can we do more

There can peace  
Found within us all  
Maybe someday  
We can tear down our walls  
Built between woman and man  
Ordinary people with a simple plan

Violence is the weakest power  
But there will always be war  
Stuck in our darkest hour  
Can we do more

Find a way to better yourself  
Be the change you wish to see  
What a peaceful place our world could be

Violence is the weakest power  
But there will always be war  
Stuck in our darkest hour  
Can we do more

Violence is the weakest power  
But there will always be war  
Stuck in our darkest hour  
We can do more

\*\*The lyrics to the song "We Can Do More" were written about love and peace. In today's world, war and violence are the main sources of fear for many people. People tend to build walls to keep themselves protected, however, that will never repair the issue. The reality is, there is a lot more that we CAN do, starting with finding the best version of yourself. All together, we may be able to achieve the ultimate goal of love and peace.

~ Sara James, Bill Caterini
