Stationary Transient

dredg

I have felt like a quitter
Lately I have purposely been bitter
With lonelinessI have been cursed by procrastination
Lately I haven't met my expectations
Destroy this...Fighting for space
Peace is unattainable
Everywhere is the same place
Nothing is sustainable
There is no one left to embrace
Peace is unattainable
Everyone has the same face
Nothing is sustainableI have been led by addiction
Lately I've been in a state of contradiction
Destroy this...I have acted out of selfish pleasure
And from these I have gone to drastic measures
Destroy this...Fighting for space
Peace is unattainable
Everywhere is the same place
Nothing is sustainable
There is no one left to embrace
Peace is unattainable
Everyone has the same face
Nothing is sustainableFighting for space
Peace is unattainable
Everywhere is the same place
Nothing is sustainable
There is no one left to embrace
Peace is unattainable
Everyone has the same face
Nothing is sustainableFighting for space
Peace is unattainable
Everywhere is the same place
Nothing is sustainable
