

# Brick By Brick

## Train

The dust has finally settled down  
The sun is shining on these pieces that are scattered all around  
This house was everything we knew  
It's where we kept our love and every single memory of me and you  
Every letter, every note  
Every dress you never wore under your coat thrown away  
Brick by brick we can build it from the floor  
If we hold onto each other we'll be better than before  
And brick by brick we'll get back to yesterday  
When I made your body shiver and when you took my breath away  
You took my breath away  
The sky has made it back to blue  
Everything that's left is telling us the worst of it is through  
Home has never felt so right, there's nothing in the way  
There's nothing in between us, knowing where we're going is inside  
Every letter that I wrote  
Every dress you never wore under your coat thrown away  
Brick by brick we can build it from the floor  
If we hold on to each other we'll be better than before  
And brick by brick we'll get back to yesterday  
When I made your body shiver and when you took my breath away  
All the pictures that we've taken and the songs that we have played  
They have all kept track and followed back the love that we have made  
Now they're spread out on the surface where we can try to congregate  
It's not too late to believe that we can get it all again  
Brick by brick we can build it from the floor  
If we hold onto each other we'll be better than before  
And brick by brick we'll get back to yesterday  
When I made your body shiver and when you took my breath away  
Took my breath away  
Brick by brick we'll get back to yesterday  
When I made your body shiver and when you took my breath away  
You took my breath away
