

# In Your Arms

## Stanfour

I'll keep going on  
As just another one  
With another song  
Wants to be  
The only one for you Just another guy  
Blinded by your smile  
Just a lonely heart  
Can't stand this aching feeling  
We're apart, apart Let me sleep  
In your arms  
Let me breathe  
This clean, bright light  
Surrounding you I know I'm not smart  
But still I'm trying hard  
Let me be your guard  
Protecting you  
My angel from the dark I will not pretend  
That I'm just a friend  
My deliberance  
Will you think about me  
Every now and then  
When I call again Let me sleep  
In your arms  
Let me breathe  
This clean, bright light  
Surrounding you Let me dream  
In your arms  
Let me breathe  
This clean, bright light  
Surrounding you Without you In your arms  
Let me dream  
In your arms  
Let me sleep  
This clean, bright light  
Surrounding you In your arms  
In your arms
