Man In The Hall

State Radio

I did not know but
But someone died in my sleep last night
I tried to reach the phone
But in the darkness, I knocked over the light
And can you speak up?
A semi just jack knifed on the turnpike
And I'm on a pay phone
And it's gettin' to be a cold, cold night
'Cause there's one man in the corner, one man in the hall
One man standin' up sayin', "God save us all"
One man in the corner, one man in the hall
One man standin' up sayin', "God save us all"
One man in the, one man in the, one man in the
Man in the, man in the hall
She was tellin' me not to worry
That it's all, all in my head
Said, "No, ma don't want to go to sleep
No, not quite yet"
"'Cause there seems to be somethin'
And I can't put it all to bed
Don't wanna go to sleep, ma
Don't wanna go to sleep, ma
Don't ever never want to go to sleep"
'Cause there's one man in the corner, one man in the hall
One man standin' up sayin', "God save us all"
One man in the corner, one man in the hall
One man standin' up sayin', "God save us all"
One man in the, one man in the, one man in the
Man in the, man in the
Have you not seen the woman that belonged to this one?
She was overcome thinking about the role of the side you on
Have you not seen the woman that belong to this one
Yeah, she was uptight thinking about the role of
The side you on, side you on, side you on, side you on
Side you on, side you on, side you on, what side you on?
One man in the corner, one man in the hall
One man standin' up sayin', "God save us all"
'Cause there's one man in the corner, one man in the hall
One man standin' up sayin', "God save us all"

One man in the corner, one man in the hall
One man standin' up sayin', "God save us all"
One man in the, one man in the, one man in the
Man in the, man in the
