

# Love Is a Drum

## Cider Sky

The red parade  
Fills up half our street now  
They sweep away  
The year that's gone  
The silent sky (I can hear your heartache)  
Feels so cold and lonely (never felt so lonely)  
Tears go dry (and the tears they go dry)  
Before we say[Chorus]  
I'm just gonna follow your heart  
I'm just as scared as you are  
Love is a drum hear it beating, beating  
I'm just gonna follow your heart  
And I don't care where we are  
Love is a drum hear it beating for you In dreams I smile (I can feel you smiling)  
And all my words are sweeter (all my words are sweeter)  
And every touch (every touch that you give)  
Is like a wave[Chorus] And as the world hits my eye  
And as the tide reaches out  
I'm all yours[Chorus x2] Love is a drum hear it beating for you  
Love is a drum hear it beating for you
