Another World

Poe

(Wanna hear it?)What's the crime, man
Caught in space
Nothing and everything is
Always always alwaysWhat's your hurry
What's the hurry
There's no need to drive yourself so crazy
Solar reaction, ruptures the skin
And the sky above is saying
The world is caving in
Don't worry, don't worryChorus:
Another world
Another time
Another place
Don't you worry, my babySee you're afraid to make that change
Just close your eyes
Then let me explain it to you, it's easy
Oh so easy,
There's no need to drive yourself so crazyBypass those channels of your memory
Why don't you mute those crenvulses
And those frequencies, and don't worry
No don't worry, it's just livingChorusDrop everything
This must be the end of the world
This might be heaven or hell
Or it may just be another world
Or it may just be another worldChorusAnother world
Another time
Another place
Don't you worry, my baby
Don't worry
