

Busking

Davide Swarup

Come on bus, come on bus,
come on bus, are you coming here for me
come on bus, come on bus,
come on bus, there's somewhere I've got to be
See I've been waiting, for this bus,
I've been waiting for this bus for such a long time,
and I don't now, if it ever show,
I guess I might as well just take another line.
See I'm late, I've got a date,
need to get myself downtown by quarter to three,
and I don't know if this bus don't show
I don't know if it's gonna show on time for me.
Come on bus, come on bus,
come on bus, are you coming here for me
come on bus, come on bus,
come on bus, there's somewhere I've got to be.
Here's my bus, about to go,
about to go right to where I've got to be,
there's my bus, about to go,
there's my bus, bus whose come to get me...
