

# Lost In a Crowd

## Fantastic Negrito

Lost in a crowd  
You feel your thoughts out loud  
Lost in the [?] of the sound  
Get through the day, don't drown  
Life it goes fast, youth is gone  
Feeling so lost  
Come on, grieve, move on  
Stuck in the shadows of a lie  
That you tried to leave behind  
Can't people play  
Slave through the year for a holiday  
Stuck in a room for too long  
Waiting to hear your favorite song  
Can't you see out on a ledge?  
Shapeless expressions, lame, dead  
Until you're fat, until you're dumb  
Spend all your money 'til you come.  
You travel, and you travel, trying to find it  
I know that neither one of us  
No, neither one of us can survive it  
We travel, and we travel trying to find it  
We're just people, lonely people, you and I  
Get yourself, get yourself, get yourself  
Stand in line, wait for your turn, don't you cry  
They make the past seem nigh  
You took their money, now you die  
Feelings of rage, broken bones  
Lost in a crowd  
Now you're on your own  
This is your life, now you're gone  
There's no tomorrow  
It's here, it's gone  
Well we traveled, and we traveled, trying to find it  
I know that neither of us  
No, neither one of us can survive it  
The Good Lord did travel, did travel trying to find it  
We're just people, lonely people, you and I  
We're just people, lonely people, you and I  
We're just people, lonely people, you and I

La la la, la la la, la la la

La la la, la la la, la la la

Lonely people
