Precious Nothing

Deadstar Assembly

I know your bad for me
It makes me want you more
I will do anything
Cause I'm your filthy whore.
You keep me down
And i cant face the day
You keep me bound
And cant escape the fray
I'm much more than this
But i dont mean much
I dont matter to you
Cause i'm just a fuck
I should've never beleived those things you said
Everything i felt inside is dead
I thought i meant something
I guess not i'm a precious nothing to you
I keep on losing face
Until i'm erased
Welcome to the trends
And spread the pop disease
You cant lose the friends
That spread their legs to please you
I should've never beleived
The things you said
Everything i feel inside is dead
Wear The Mask!
