

# Be Still My Heart

**Peter Bradley Adams**

I don't know how love begins  
It moves too fast for me to tell  
I'll raise a flag to catch the wind  
Safe at the bottom of a well It came and went just like a spark  
And lit a fire in my head  
It burned the hole right through my heart  
And left a ghost beside my bed You walk before me  
The shape in the dark  
A shape in the dark These dreams they hold me  
And tear me apart  
They tear me apart Be still my heart  
Be still my heart One more time before I fall  
I'm gonna stand within your reach  
And throw my head against the wall  
And break the promises I keep Some day before me  
There's peace in the night  
There's peace in the night Some day you'll show me  
It all worked out right  
It all worked out right
