You want a lover, you want a new lover
You want a lover, you want a new lover
You want a lover, you want a new lover
You want a lover, you want a new lover You want a lover, you want a new lover
You want a lover, you want a new lover You was my lover, you want my love now
You was my lover, you want my love now
You was my lover, you want my love now
You was my lover, you want my love now You want a lover, you want a new lover
You want a lover, you want a new lover
You want a lover, you want a new lover
You want a lover, you want a new lover You want a lover, you want a new lover
You want a lover, you want a new lover You was my lover, you want my love now
You was my lover, you want my love now
You was my lover, you want my love now
You was my lover, you want my love now
