

Poison Well

Insolence

Advisory - the following lyrics contain explicit language:

When it happen again like the time before
Took a trip through my mental and find a small door
To a passage written through time this is my mind set
You find it deeper inside the strong-minded
I find the energy and feel fire
Changes the gravity inside of me
We have no time to fret
No time for regret
If the poison doesn't kill us we commin live and direct This is my life
This is my hell
Straight took a journey
This is my life
This is my hell
Straight took a journey My brain strain
I feel no pain
All kinds a chemicals race through my brain
This and that well let me counteract
Im lost in the vortex and aint commin back
I become you and you become me
Lost in dream of fact or fantasy
Hallucinations from red to green
Find the calculations for why we fiend This is my life
This is my hell
Straight took a journey
to the poison well
This is my life
This is my hell
Straight took a journey
to the poison well
This is my life
This is my hell
Straight took a journey

Inside Tha Poison Well
I found my hell
Inside Tha Poison Well
