

The Rest Is Noise

Field Music

Take a tip
Save your breath
The moment is passed us for now No distractions
No applause
The less is more How can we talk of more
When the bricks are at our feet?
We let them all fall in on us
And all because Wrap it up
Keep it quiet
Nobody likes a pest To be happy
To be bored
Let the rest be noise How can we talk of more
When the bricks are at our feet?
We let them all fall in on us
And all because We could go back now
There'd be nothing left to find
We let them all fall in on us
They fall in on
