Hold Your Colour

Pendulum

Soaking through
Colours that have us up against the wall
Soaking through
Colours that have us up against the wall
Hold your colours against the wall
When they take everything away
Hold your colours against the wall
Soaking through
Hold your colours against the wall
When they take everything away
Hold your colours against the wall
Soaking through
Ah, she looked into your eyes
And saw what laid beneath
Don't try to save yourself
The circle is complete
We're reaching out and to tell you
Nothing else can touch me
Soaking through
Hold your colours against the wall
When they take everything away
Hold your colours against the wall
Soaking through
Ah, she looked into your eyes
And saw what laid beneath
Don't try to save yourself
The circle is complete
Fading gently
Soaking through
We're reaching out and to take you
Nothing else can touch me
Soaking through
Hold your colours against the wall
When they take everything away
Hold your colours against the wall
Soaking through
Hold your colours against the wall
When they take everything away
Hold your colours against the wall
