Chaosweaver

Scar Symmetry

I gain energy from your attack
Feed on the venom you spew
I find destiny in the certainty of death
Turning what you say against youThe beginning, found within the end
Triumph bringing a sense of lossChaosweaver
From the shadows you hide
In defiance
You are hollow insideIn your assault I find nourishment
Your verbal weapons inspire me
All that you throw at me gives comfort
In this continual dance of eternityThe beginning, found within the end
Triumph bringing a sense of lossChaosweaver
From the shadows you hide
In defiance
You are hollow insideChaosweaver
You're the poisonous wine
Words of venom
Casting pearls before swineWeave the end of time
It's slipping away from you
Away from your soul
In your last abide, awaken inside and realizeChaosweaver
From the shadows you hide
In defiance
You are hollow insideChaosweaver
You're the poisonous wine
Words of venom
Casting pearls before swineChaosweaver
From the shadows you hide
In defiance
You are hollow inside
