So Dream

Common Children

Wrap your shame in a shroud
Raise your grief to the clouds
Angels sing inside our smiles
Let the wind wash the stains outLet the sky drip in your eyes
Innocent and kind
A place where fools can hideSo dream
Love falls down from Heaven
When we dream
(Close our eyes)
Love falls down from HeavenIf we dream through this night
We can dance in the twilight
Shut our eyes and then sleep tightBy the light of sweet grace
In the fire where our hearts fade
Step inside and find
A shameless state of mindSo dream
Love falls down from Heaven
When we dream
(Close our eyes)
Love falls down from Heaven
(When we cry)
Love falls down from Heaven when we dreamSo dream
Love falls down from Heaven
When we dream
(Close our eyes)
Love falls down from HeavenWhen we dream
(Close our eyes)
Love falls down from Heaven
When we dream
(Close our eyes)
Love falls down from Heaven(When we cry)
Love falls down from Heaven
(When we dream)
Love falls down from Heaven
