

L.A. Looks

HEALTH

We're alone here
No matter who we're with
Am I stuck with myself
Along with everyone else? I want another life
(Don't hold your breath)
I want another chance
(But you can't swim)
I want another life
(Don't hold your breath)
I want to try again
(But you can't swim)
But it's not love
It's not love
It's not love but I still want you
It's not love, it's not love
It's not love but I still want you
Are we torn like this
Are we stuck in our skin
Am I sick of myself
I'll never be anyone else
