Safe In The Dark

Ludo

Have you been up late nights?
It's okay, it's just been hard to sleep
It seems so in your eyes
It's just that work has been getting to me
I heard about your beau
He's not feeling well but he's alright
There's something I can do
Thanks for offering but I'll be fine
Everyone wants to feel safe in the dark
Everyone wants to feel safe in the dark
Have you been up late nights?
Couldn't swallow, couldn't get to sleep
I see it in your eyes
It's just that sickness has been getting to me
Well, what about your belle?
Can you help her? Can you make the time?
I'll do all I can do
Just don't worry 'bout me, I'll be fine
Everyone wants to feel safe in the dark
Everyone wants to feel safe in the dark
Forces unseen pulling strings in your heart
Everyone wants to feel safe in the dark
Well, where are you guys then?
We're up north, just trying to beat the heat
When are you coming home?
Not sure I can make it back for weeks
So how are all your shows?
Kelly called and said you're not alright
You take care of him
There's something bigger going on this time
Everyone wants to feel safe in the dark
Everyone wants to feel safe in the dark
Forces unseen pulling strings in your heart
Everyone wants to feel safe in the dark
Everyone wants to feel safe in the dark
Everyone wants to feel safe in the dark
Forces unseen pulling strings in your heart
Everyone wants to feel safe in the dark
Everyone wants

Everyone wants to feel safe in the dark
Everyone wants
Everyone wants to feel safe in the dark
