

# Happiness

## Tones On Tail

To be without desire  
Destroys a different style  
To let her pass you by  
It's no good If only we could walk away  
With all this out my way  
To be without you  
It's no good To grab the biggest cake  
Gives life its zest and taste  
This is the truth, my friend  
It's not good Happiness is success  
Success brings hope  
Hope it's not good
