Every

Super Smoky Soul

Every line I wrote for you
Every rule I kept for you
Now you are near
Now you are here
I don't know what to do
With meEvery game I'll play for you
Every blame I'll take for you
But now you are here
Now you are near
I don't know what to do with meNow you are near
And now you are here
Don't know what to do
With meNow you are near
And now you are here
It's me
